

Graphic design and branding

- Logo concepts in 20 styles from one brief
- Brand guidelines document from approved logo and palette
- Colour palettes with accessibility contrast checks
- Social media templates sized for every platform
- Moodboards assembled from a written brand brief
- Competitor brand audit with visual comparison grid
- Brand name shortlists with domain availability checks
- Tagline options tested against tone-of-voice rules
- Packaging dieline mock-ups rendered in 3D
- Print-ready brochures laid out from supplied copy
- Business card and stationery sets in several variants
- Icon sets drawn in one consistent style
- Figma component libraries built from brand rules
- Ad creative variations for A/B testing at scale
- Infographics designed from spreadsheets or reports
- Pitch deck redesigned to match brand guidelines
- Signage and wayfinding visuals placed on site photos
- Brand refresh options evolving the current identity
- Custom illustrations in a defined house style
- Merchandise mock-ups on apparel, mugs and bags
- Event banners and exhibition stand graphics at size
- Tone-of-voice guide with before-and-after copy examples
- Localised artwork versions for multiple languages
- Font pairing recommendations with licensing notes
- Animated logo stings for video and social
- Annual report layout with charts from raw data
- Website hero banners in seasonal campaign variants
- Brand asset library tagged and organised for teams
- Print files preflighted for bleed, CMYK and resolution
- Customer persona posters with visual identity cues

Video and film production

- Rough cut assembled from raw footage and transcript
- Subtitles and captions in 30 languages
- Short social clips cut from long-form interviews
- Shot lists and call sheets from a script
- Storyboards illustrated from a written treatment
- Scripts drafted for explainer and promo videos
- Consistent colour grade across scenes in DaVinci Resolve
- Dubbed voiceover tracks in multiple languages
- B-roll generated for scenes too costly to shoot
- Animated explainer videos from a product brief
- Multicam interviews synced and switched by speaker
- Video thumbnails in multiple tested variants
- Chapter markers and descriptions written from transcripts
- Location scouting packs from maps and street imagery
- Production schedules and budgets from a shooting script
- Filler words and long pauses removed from edits
- Product demo videos from screen recordings
- Branded lower thirds and motion graphics templates
- Pitch trailers and sizzle reels from archive footage
- Footage logged, tagged and searchable by content
- Edits reframed for vertical, square and widescreen
- Dialogue cleaned and levelled across all clips
- Training video series built from existing documents
- Sky replacements and object removals in VFX shots
- Previsualisation animatics for complex scenes
- Continuity checks across takes with flagged errors
- Personalised video messages generated at scale
- Festival submission packs with synopses and press kits
- Music cues selected and edited to picture
- Behind-the-scenes edits from crew phone footage

Photography and image editing

- Product photos retouched in batches of thousands
- Backgrounds removed and replaced for online listings
- Lifestyle scenes generated around real product shots
- Headshots colour-matched for consistent team pages
- Wedding galleries culled and ranked from thousands of frames
- Property photos with HDR blending and sky replacement
- Virtual staging of empty rooms for estate agents
- Old family photographs restored and colourised
- Images upscaled for large-format printing
- Alt text and captions written for every image
- Shoot shot lists and lighting diagrams
- Custom editing presets matched to reference images
- Images keyworded and tagged for stock libraries
- Composite images built from multiple exposures
- Portrait retouching that keeps natural skin texture
- Ghost mannequin effect for clothing photography
- Product colour variants created from one shoot
- 360-degree product spins from sequence shots
- Photo books designed from curated galleries
- Event photos sorted by face for each attendee
- Unwanted objects and people removed from scenes
- Perspective and lens distortion corrected for architecture
- Seasonal and weather variations of one exterior photo
- Food styling references and prop lists per shoot
- Drone images stitched into panoramas and orthomosaics
- Photogrammetry 3D models from photo sets
- Fine art prints soft-proofed for each paper
- Photo essays with captions and sequencing
- Brand photography style guide with example images
- Reverse image searches finding unlicensed use

Audio, music and podcasting

- Podcast episodes edited, levelled and mastered
- Show notes, transcripts and timestamps per episode
- Audiograms and video clips for social promotion
- Interview question sets researched for each guest
- Background noise and echo removed from recordings
- Stems separated from finished mixed tracks
- Audiobook narration in a licensed synthetic voice
- Jingles and sonic logos in multiple variations
- Background music composed to a written brief
- Voiceovers in many languages and accents
- Mix feedback notes compared against reference tracks
- Masters prepared for streaming loudness targets
- Sound effects libraries designed for games and film
- Lyric drafts and rhyme alternatives for songwriters
- Chord charts and sheet music transcribed from audio
- Podcast launch packs: trailer, artwork, descriptions
- Radio adverts scripted, voiced and produced
- Episode content calendars with topic research
- Audio description tracks for accessible video
- Sync licensing pitch packs with track metadata
- Room acoustic treatment plans from measurements
- DJ sets sequenced by key and tempo
- Release metadata prepared for music distribution
- Archive recordings restored from tape and vinyl
- Sonic branding guides for retail spaces
- Practice backing tracks with chosen instrument removed
- Audio tours for museums and attractions
- Album artwork and press release packs
- Dialogue edits and ADR cue sheets for film
- Meditation and sleep audio produced from scripts

Architecture, CAD and 3D visualisation

- Photorealistic renders from SketchUp or Revit models
- Concept massing options from site boundary and brief
- Design and access statements drafted for planning
- Planning history and policy reports for a site
- Walkthrough animations rendered from building models
- Hand sketches redrawn as measured CAD floor plans
- Area schedules calculated from CAD drawings
- Daylight and sunlight studies for neighbouring properties
- Blender scenes built from plans via scripts
- Material and finish boards from design intent
- Street-scene visualisations showing proposals in context
- Drawing sets checked for missing dimensions and labels
- Parametric facade options generated by script
- 3D-printable scale models prepared from CAD files
- Building regulations compliance checklists per project
- Point cloud scans converted into measured drawings
- Virtual reality tours of unbuilt spaces
- Extension options for homeowners from photos and plans
- Energy performance estimates at concept stage
- AutoCAD routines automating repetitive drafting tasks
- Landscape planting plans with species schedules
- Revit families built from manufacturer data sheets
- Before-and-after visuals for public consultation
- Specification documents drafted from model data
- Site analysis diagrams: sun, access, views, noise
- Isometric and exploded axonometric drawings
- Competition boards laid out from project material
- Model clash reports summarised into action lists
- Heritage impact assessments with historic map research
- Fire strategy layout drafts for specialist review

Interior, lighting and AV design (home cinema, smart home)

- Lighting scene renders from a floor plan
- Room layout options from measurements and photos
- Furniture schedules with sourced products and links
- Mood boards and sample palettes for each room
- Home cinema speaker placement plans to Dolby guidelines
- Seating and sightline drawings for cinema rooms
- Smart home scenes and automations scripted
- Lighting circuit and keypad schedules from plans
- Lux level calculations for each space
- Equipment rack elevations and wiring diagrams
- Cable schedules and containment routes
- Wi-Fi coverage and network plans for homes
- Handover manuals with simple system user guides
- Before-and-after visualisations from site photos
- Acoustic treatment layouts with panel specifications
- Kitchen and bathroom design options in 3D
- Equipment lists with compatibility checks
- Multiroom audio zone plans with product options
- Joinery drawings for cabinetry and media walls
- Control system configuration files drafted for review
- Hotel and office fit-out concept presentations
- Paint colour visualisations on real room photos
- Motorised blind and curtain schedules
- Meeting room AV specifications for offices
- Artwork selection and hanging plans per wall
- Troubleshooting guides for each installed system
- Ageing-in-place and accessibility design recommendations
- Projector throw and screen size calculations
- Circadian lighting schedules for wellbeing
- Retail fixture plans and visual merchandising layouts

Construction and trades

- Bill of quantities from architect drawings
- Itemised quotes from site photos and measurements
- Material take-offs counted from PDF plans
- Project programmes and Gantt charts from scope
- Risk assessments and method statements per job
- Snagging lists compiled from walk-round video
- Client progress reports with annotated photos
- Product alternatives meeting specification, with lead times
- Tender packages and scopes for subcontractors
- Plain-English explanations of works and options
- Variation orders priced and documented
- Roof measurements estimated from aerial imagery
- Kitchen and bathroom 3D previews for homeowners
- Damp, crack and defect reports from photos
- Building survey reports drafted from site notes
- Electrical certificates prepared from test results
- Heat loss calculations and heating system sizing
- Solar panel layouts with yield estimates
- Cutting lists optimised to reduce material waste
- Site induction packs for each project
- Planning and building control submissions assembled
- Operation and maintenance manuals compiled at handover
- Garden and landscaping visuals to support quotes
- Value engineering options with cost comparisons
- Site logistics and crane lift plans
- Retrofit and insulation plans for older homes
- Construction phase plans under CDM regulations
- Toolbox talk scripts and briefing sheets
- Aftercare and warranty guides for homeowners
- Timelapse progress videos from site cameras

Engineering and manufacturing

- CAD models generated from sketches and dimensions
- Toleranced technical drawings from 3D models
- Bills of materials extracted from assembly files
- Design for manufacture review notes on parts
- FMEA documents drafted from product descriptions
- Illustrated assembly instructions from CAD exploded views
- Supplier comparison reports for components
- Engineering calculations in checked Python notebooks
- Generative design options for lightweight brackets
- CNC toolpath set-ups reviewed and documented
- Datasheets and spec sheets for product ranges
- Test plans and reports from results data
- Quality inspection checklists from drawings
- Root cause analysis reports from defect data
- PLC and robot programs drafted for review
- Product renders and exploded views for marketing
- UKCA and CE technical files assembled
- Production line layout options for factory floors
- Machine monitoring dashboards from sensor data
- Predictive maintenance alerts from equipment data
- Illustrated standard operating procedures per workstation
- Reverse-engineered models from 3D scans
- Cost estimates per part from geometry and material
- Tolerance stack-up analyses for assemblies
- FEA simulation set-ups and result summaries
- Patent landscape searches for new designs
- 3D printing build files prepared and nested
- Material selection reports with trade-off tables
- Operator training modules for new equipment
- Legacy paper drawings digitised into searchable CAD

Software, apps and automation

- Working prototype apps from a written brief
- Websites built and deployed from a sitemap
- Bug fixes with tests from issue descriptions
- Automated test suites for existing codebases
 - Legacy code migrated to modern frameworks
- API integrations connecting client systems
- Internal dashboards built on company databases
- Technical documentation generated from source code
 - Code security reviews with prioritised fixes
- Chatbots answering from client knowledge bases
- Data cleaning pipelines for messy spreadsheets
- Mobile app screens designed and coded from wireframes
- Scrapers and data feeds monitoring public websites
- Workflow automations replacing manual copy-paste tasks
- Infrastructure-as-code scripts for repeatable cloud deployments
- Website accessibility audits with fixes applied
 - Performance profiling with optimisation recommendations
 - Database schemas designed from business requirements
 - Custom MCP connectors for in-house tools
- User stories and acceptance criteria from interviews
- Browser extensions for specific team workflows
- Spreadsheet models converted into web apps
- Architecture diagrams generated from existing systems
 - Data migration scripts between platforms
 - Shopify and WordPress plugins built to specification
 - Automated weekly reports delivered as PDFs
 - Usability test scripts and findings summaries
 - Machine learning models trained on client data
 - Monitoring and alerting for production systems
 - Pull request reviews with suggested code changes

Marketing and advertising

- Full ad campaign in 40 variants for testing
- Monthly social media calendar with captions and images
- Competitor ad library review with messaging gaps
- Customer personas built from reviews and survey data
 - Brand voice guide with do and don't examples
 - Product launch plan with timeline and channel mix
- Short promo videos cut for each social platform
- Email nurture sequence of twelve tailored messages
- Landing page copy in three tested angles
- Weekly campaign report with plain-English commentary
- Paid search keyword list with grouped ad copy
- SEO content plan covering a year of topics
 - Influencer shortlist with audience fit notes
 - Creative brief from a single client conversation
 - Brand refresh moodboards and logo concept routes
 - Localised campaign versions for five regional markets
 - A/B test plan with hypotheses and success measures
- Radio and podcast ad scripts with voiceover drafts
- Event promotion pack: posters, posts and emails
 - Marketing strategy deck from a discovery workshop
 - Audience segmentation from customer purchase history
 - Product photography variations on new backgrounds
 - Trade show stand graphics and leaflet artwork
- Customer review analysis with top themes and quotes
- Award entry drafts with evidence and results
- Retail point-of-sale copy for every product line
- Marketing budget scenarios with forecast outcomes
- Case study write-ups from client interview recordings
- Rebrand rollout checklist across every customer touchpoint
- Quarterly marketing review with next-quarter recommendations

PR, copywriting and publishing

- Press release drafted from a two-line brief
- Targeted media list with journalist interest notes
- Daily press coverage summary with sentiment
 - Crisis holding statements for likely scenarios
 - Thought leadership articles in the client's voice
 - Spokesperson briefing pack with likely tough questions
- Ghostwritten LinkedIn posts for a month
 - Book manuscript structural edit with chapter notes
- Copyedited and proofread manuscript with tracked changes
- Audiobook narration draft from a finished manuscript
- Back-cover blurb, synopsis and author bio
- Website copy rewrite across every page
- Annual report narrative sections drafted from data
- Pitch emails personalised for fifty journalists
- Newsletter issues written from company updates
 - Speech drafts timed to a set length
 - Award-ready company story and founder profile
- Feature ideas matched to media forward calendars
- Ebook formatted for print and digital stores
- Reader reports on unsolicited manuscript submissions
- Style guide and glossary for house publications
- Interview transcripts turned into quotable highlights
- Product descriptions written in consistent house style
 - Fact-check report with sources for every claim
 - Podcast show notes, titles and episode clips
 - Grant or funding bid narrative drafts
 - Reputation audit of online mentions and reviews
 - Book cover concept options with typography variations
 - Sensitivity and accessibility read with suggested changes
 - Brand story script for an explainer video

Websites and e-commerce

- Working website prototype from a written brief
- Full product catalogue descriptions and SEO titles
- Accessibility audit with prioritised fixes
- Site speed report with specific improvement steps
 - Online shop set up with products and categories
 - Product images cleaned, resized and background-matched
 - Checkout journey review with drop-off fixes
 - Site migration plan with redirect mapping
 - Broken link and content error report
 - Customer service chatbot trained on shop policies
 - Lifestyle product shots generated from studio photos
 - Marketplace listings adapted for Amazon, eBay and Etsy
 - Abandoned basket email series with tailored offers
 - Product comparison pages and buying guides
 - Technical SEO audit with ready-to-apply fixes
 - Custom website features built and tested
 - Competitor pricing tracker with weekly change alerts
 - User testing script and summarised session findings
 - Wireframes and page layouts for a redesign
 - Product data feed cleaned for Google Shopping
 - FAQ page built from real customer queries
 - Privacy and cookie notice drafts for review
 - Seasonal sale microsite with banners and copy
 - Bundle and cross-sell suggestions from sales data
 - Content management training guide for client staff
 - Multilingual store with translated product pages
 - Conversion experiment plan with page variants
 - Product demonstration videos from still images
 - Returns analysis with product page improvements
- Analytics dashboard with monthly plain-English commentary

Data, research and analysis

- Market sizing report with sources and assumptions
- Survey designed, analysed and written up
- Interview transcripts coded into themes with quotes
- Competitor landscape map with feature comparison
- Messy spreadsheets cleaned and merged into one dataset
- Interactive dashboard built from existing company data
- Literature review with full citation list
- Sales forecast with best, expected and worst cases
- Customer churn analysis with likely causes
- Desk research briefing on a new market
- Data quality audit with error counts and fixes
- Monthly KPI pack with charts and commentary
- Focus group summary with key findings
- Pricing study using competitor and customer data
- Statistical analysis of trial or experiment results
- Automated data collection from public websites
- Customer segmentation model with profile descriptions
- Board-ready research presentation from raw findings
- Patent and trademark landscape search summary
- Social listening report on brand perception
- Location analysis for new store or office sites
- Supplier and partner due diligence profiles
- Funding and grant opportunity scan with deadlines
- Policy and regulation tracker for a sector
- Charts redesigned for clarity, screen and print
- Multi-country survey results compared side by side
- Trend report drawing on news, filings and research
- Impact evaluation report for a funded programme
- Reproducible analysis code with documentation
- Executive summary of a long research report

Finance, accounting and tax

- Year-end accounts draft for accountant review
- Management accounts pack with variance commentary
- Self-assessment tax return draft from client records
- Client transactions categorised ready for accountant review
- Cash flow forecast with thirteen-week view
- Budget versus actual report with plain-English explanations
- Business plan financials with three-year projections
- R&D tax relief claim narrative draft
- VAT return preparation with flagged anomalies
- Client onboarding pack with document request checklist
- Company valuation model with sensitivity tables
- Financial due diligence summary for acquisitions
- Expense claims reviewed against company policy
- Payroll variance check between monthly runs
- Audit evidence files organised and cross-referenced
- Tax planning scenario comparisons for adviser sign-off
- Quarterly investor update financial section
- Loan or grant application financials
- Plain-English letter explaining a client's tax position
- Making Tax Digital readiness check for sole traders
- Fixed asset register rebuilt from invoices and records
- Pricing and margin analysis by product line
- Charity accounts and trustees' report first draft
- Estate summary for inheritance tax adviser review
- Corporation tax computation working papers
- Key ratios benchmarked against similar businesses
- Client deadline calendar with tailored reminders
- Year-on-year accounts comparison with questions to ask
- Cost reduction review with savings opportunities
- Board finance pack with dashboards and narrative

Legal services

- Lease summary with break clauses and page references
- Contract first draft from the firm's approved templates
- Contract review flagging non-standard and risky clauses
- Court bundle indexed and paginated
- Disclosure review with relevance tagging for solicitors
- Case chronology built from emails and documents
- Legal research memo with cited authorities
- Witness statement drafts from interview notes
- Due diligence report across a data room
- Standard terms and conditions refreshed for review
- Contract version comparison with changes explained
- Privacy policy and data processing agreement drafts
- Client-friendly summary of complex legal advice
- Report on title drafts for conveyancers
- Will and lasting power of attorney first drafts
- Regulatory change briefing tailored to a client's sector
- Employment contracts and policy handbook drafts
- Letter before action drafted from case facts
- Trademark clearance search with conflict summary
- Contract obligations and renewal date tracker
- Foreign-language evidence translated for lawyer review
- Hearing transcript summaries with key admissions
- Board minutes and resolutions from meeting notes
- Subject access request responses redacted for review
- Settlement options analysis with cost estimates
- Compliance checklist mapped against a new regulation
- Client intake questionnaire with conflict check summary
- Skeleton argument first draft for counsel
- Licensing portfolio audit with key terms extracted
- Plain-English client guides to common legal processes

Recruitment and HR services

- Job descriptions and adverts from a hiring brief
- Candidate shortlist scored against agreed criteria
- Structured interview questions and scoring guides
- Candidate CVs reformatted to agency branding
- Personalised outreach messages to passive candidates
- Interview notes turned into candidate summaries
- Salary benchmarking report for a specific role
- Onboarding programme with first-ninety-day plan
- Employee handbook drafted for HR and legal review
- Staff survey analysis with themes and actions
- Skills matrix and training gap analysis
- Competency framework for each job family
- Assessment centre exercises and marking guides
- Talent market map of competitor teams
- Exit interview analysis with retention recommendations
- Performance review templates and manager guidance
- Restructuring consultation documents for HR review
- Diversity data report with inclusive hiring actions
- Employer brand videos and careers page content
- Candidate status updates sent at every stage
- Reference requests sent and responses summarised
- Job advert bias check with suggested rewording
- Organisation chart and role mapping for redesign
- Workforce plan with hiring timelines and costs
- HR policy library refreshed against current guidance
- Graduate scheme recruitment pack and screening questions
- Learning plans tailored to individual employees
- Client hiring report with time-to-hire analysis
- Grievance investigation report from case documents
- Right-to-work document checklist per candidate

Education and training

- Course materials, quizzes and slides from one syllabus
- Lesson plans differentiated for three ability levels
- Draft marking and feedback against a set rubric
- E-learning module with narration and knowledge checks
- Training videos with AI presenter and subtitles
- Revision guides and flashcards for each unit
- Exam practice papers with mark schemes
- Training needs analysis from staff survey results
- Workshop facilitator guide with timings and activities
- Role-play scenarios for customer service training
- Personalised tutoring chatbot on course content
- Curriculum mapped against qualification standards
- Accessible versions of materials for SEND learners
- Reading materials adapted to different reading ages
- Course evaluation report from learner feedback
- Induction training pack for new starters
- Apprenticeship portfolio evidence checks and feedback
- Compliance training refreshed for current regulations
- Interactive case studies drawn from real client scenarios
- Microlearning series sent as short daily lessons
- Learner progress reports for parents or managers
- Inspection evidence pack organised by framework
- Course translated into multiple languages with voiceover
- Leadership programme design with modules and assessments
- Coaching session summaries with agreed actions
- Accreditation application documents drafted for review
- Educational illustrations and diagrams for each topic
- Prospectus and course marketing pages
- Webinar recording turned into a full online course
- Skills assessment test with automatic scoring

Translation and localisation

- Website translated into ten languages for review
- Document translation with bilingual glossary
- Video subtitles in multiple languages
- Dubbed video voiceover matching the original speaker
- Marketing copy transcreated for local culture
- Software interface text localised with context checks
- Translation memory and terminology base from past work
- Quality check report on existing translations
- Legal and technical translations for certified translator review
- Product packaging and labels adapted per market
- Localised SEO keywords for each target country
- Meeting and interview transcripts translated with timestamps
- E-learning courses localised with translated narration
- Cultural suitability review of images and messaging
- App store listings localised for each market
- Medical document translation for specialist review
- Style guides for each target language
- Customer support replies translated and tone-matched
- Plain-language summaries of foreign documents
- Multilingual chatbot answers checked for local accuracy
- Game dialogue and in-game text localised
- Easy-read versions of public information documents
- Localised prices, dates and units across materials
- Translated survey responses coded into themes
- Book translation first draft for a literary translator
- Brand name checks for meaning in other languages
- Patent translations for attorney review
- Localisation readiness audit of a website or product
- Back-translation report for checking critical content
- Conference materials translated with live caption files

Property and estate agency

- Property brochure and floor-plan walkthrough from photos
- Listing descriptions written for Rightmove and Zoopla
- Virtually staged room images from empty-room photos
- Area guide covering schools, transport and amenities
- Comparable sales report for valuation appointments
- Weekly vendor marketing update with viewing feedback
- Short property video tour with voiceover and captions
- Social media posts for each new listing
- Tenant welcome pack with appliance and utility guides
- Property inventory report drafted from photo walk-round
- Market appraisal pitch pack for prospective vendors
- Twilight and sky-replacement edits for exterior photos
- Landlord compliance checklist with renewal dates
- Buyer FAQ sheet per property from vendor answers
- Price reduction strategy note backed by local data
- Monthly local market report for past clients
- Development sales brochure from architect's plans
- Planning application summary for buyers and vendors
- Renovation potential report with indicative extension ideas
- Multilingual listing translations for overseas buyers
- Open house invitation campaign and signage designs
- Rental yield and investment summary for landlords
- Commercial property particulars with tenancy schedule
- Sales progress tracker shared with buyers and sellers
- Neighbourhood map showing walking times to key places
- Material information pack drafted from vendor questionnaire
- Refreshed advert and photos for re-let properties
- Auction catalogue entries with legal pack summaries
- Snagging report for new-build buyers from photos
- Leaseholder newsletter with works updates and notices

Hospitality, pubs and restaurants

- Seasonal menu with costings and allergen labels
- Allergen matrix covering every dish on the menu
- Menu descriptions rewritten for print and online
- Food photography edits and menu imagery
- Weekly specials board and matching social posts
- Replies to Google and TripAdvisor reviews
- Wine list with tasting notes and food pairings
- Event night promotion pack: posters, posts, listings
- Pub quiz questions and answer sheets each week
- Staff training guide for a new menu launch
- Recipe cards with method, yield and photos
- Christmas party menu and booking brochure
- Private hire and function room brochure
- Food safety record templates and HACCP plan
- Function menu packages tiered by guest numbers
- Multilingual menus for tourist visitors
- Cocktail menu with recipes and spec sheets
- Guest feedback analysis with themed improvement actions
- Hotel room descriptions for booking websites
- Local attractions guide for hotel guests
- Short video reels from kitchen footage
- Menu engineering report ranking dishes by popularity
- Theme night concept with menu and decoration plan
- Loyalty scheme design and promotional materials
- Beer garden and summer launch campaign
- Calorie labels for menus meeting UK rules
- Children's menu with activity sheet
- Website menu pages updated from kitchen notes
- Online presence audit with a prioritised fix list
- Sunday roast and set menu rotation plan

Retail and shops

- Product descriptions for the entire online catalogue
- Product photos on clean white backgrounds
- Lifestyle product images from simple packshots
- Window display concept with mood board
- Seasonal promotion campaign across shop and social
- Gift guides for Christmas and Mother's Day
- Shelf-edge labels and point-of-sale signage
- Store layout plan improving customer flow
- Customer review replies across marketplaces
- Amazon and eBay listings optimised for search
- Short product demo videos for social media
- Size guides and care instructions for clothing ranges
- Competitor range and positioning comparison report
- Staff product knowledge cheat sheets
- Shop website SEO audit with fixes applied
- Customer survey with insights and action plan
- Shoppable Instagram posts with product tags
- Product bundle and gift set suggestions
- In-store event plan for launches or workshops
- Brand style guide for an independent shop
- Translated product listings for international selling
- Click-and-collect instructions and in-store signage
- Trend report to inform next season's buying
- Google Business Profile posts and updated photos
- Packaging inserts and thank-you cards
- Product advice chatbot trained on the catalogue
- Pop-up shop proposal for landlords
- Customer returns analysis with product improvement ideas
- Local press release for a shop opening
- Monthly window poster and A-board designs

Events and weddings

- Wedding day running order from couple's notes
- Seating plan respecting family dynamics and dietary needs
- Bespoke invitation and stationery suite designs
- Venue shortlist with capacity and feature comparison
- Wedding website with travel and accommodation info
- Supplier briefing pack for photographers and caterers
- Speech drafts for best men and parents
- Event mood boards and colour palettes
- Conference agenda and speaker biographies booklet
- Delegate welcome pack with maps and Wi-Fi details
- Event risk assessment drafted for venue sign-off
- Same-day highlight reel edited from guest clips
- Post-event photo gallery tagged and sorted
- RSVP tracker with dietary requirement summaries
- Personal wedding vows shaped from the couple's stories
- Order of service and menu cards
- Event signage: welcome boards, table names, directions
- Sponsor proposal deck for corporate events
- Post-event attendee survey and results report
- Festival programme and stage timetable
- Contingency plan for weather and supplier no-shows
- Event floor plan with layout options
- Thank-you cards personalised for every guest
- Hen and stag itinerary with activity options
- Live event social coverage with captions
- Awards ceremony script and nominee citations
- Accessibility guide for event attendees
- Wedding album layout from selected photos
- Corporate away day programme with activities
- Event recap blog post and press release

Travel and tourism

- Tailored itineraries from customer preferences and budget
- Destination guides with maps and local tips
- Tour descriptions for booking platforms
- Multilingual visitor information leaflets
- Walking tour script and recorded audio guide
- Group tour pack with rooming lists and timings
- Seasonal holiday brochure for the full range
- Review replies on TripAdvisor and Google
- Pre-departure packing lists and travel advice sheets
- Self-guided trail map and app content
- Holiday cottage welcome book and house guide
- Attraction signage and interpretation panels
- Short destination videos for social channels
- Corporate retreat proposal with venue options
- Wet-weather alternatives built into every itinerary
- School trip pack with risk assessment and worksheets
- Accessible travel guide for disabled visitors
- Holiday let listings for Airbnb and Booking.com
- Local food and drink trail guide
- Personalised trip photobook after each holiday
- Tourism board campaign concepts and copy
- Shore excursion comparison for each cruise port
- Entry requirement summary for each destination
- Heritage site guidebook from archive material
- Tour guide training notes and fact sheets
- Seasonal events calendar for a destination
- Revised itineraries issued fast after travel disruption
- Coach tour commentary scripts by route
- Gift voucher and experience package designs
- Visitor feedback report with improvement priorities

Health, wellbeing and fitness

- Personalised workout plans from client goals
- Exercise demo videos with form cue captions
- Meal ideas and shopping lists from dietitian guidance
- Client welcome pack and studio orientation guide
- Class timetable graphics and weekly social posts
- Patient information leaflets in plain English
- Translated health leaflets for diverse communities
- Wellbeing workshop slides for corporate clients
- Thirty-day challenge programme with daily content
- Progress report templates showing client milestones
- Guided meditation scripts and audio recordings
- Practice website pages explaining treatments offered
- Yoga sequence cards with pose illustrations
- Online course modules for coaching programmes
- Recipe book matched to client dietary preferences
- Pre- and post-appointment care instruction sheets
- Blog articles answering common client questions
- Review replies for clinics and gyms
- Home exercise sheets from physiotherapist notes
- Workplace wellbeing survey and results report
- January membership promotion campaign
- Habit tracker and journal printables
- Podcast episodes edited with show notes
- Free downloadable guide for prospective gym members
- Retreat programme with schedule and packing list
- Easy-read and large-print versions of client materials
- Group class plans with music timings
- Client success stories written from feedback
- Booking and class information chatbot
- Pregnancy and postnatal exercise guides from clinician input

Beauty, salons and personal services

- Treatment menu with descriptions and durations
- Before-and-after photo posts with captions
- Aftercare instruction cards for every treatment
- Consultation forms and patch test records
- Hair colour preview images for client consultations
- Instagram content calendar with ready-made posts
- Review replies on Google, Fresha and Treatwell
- Gift voucher designs for seasonal promotions
- Bridal hair and makeup package brochure
- Short tutorial reels from salon footage
- Salon website refresh with booking-focused pages
- Skincare routine plans tailored to each client
- Staff training guides for new treatments
- Product recommendation cards after each appointment
- Loyalty cards and promotional material
- Nail art design concepts and inspiration boards
- Barbershop style guide with cut names and photos
- Pamper party package brochure and invitations
- Tattoo design drafts from client ideas
- Dog grooming report card after each visit
- Bridal trial notes turned into a wedding-day brief
- Google Business Profile posts and photos
- Local influencer collaboration pitch pack
- Treatment FAQ page answering common worries
- Retail shelf talkers and product displays
- Launch campaign for a new treatment or stylist
- Personal styling lookbook from client wardrobe photos
- Seasonal style trend guide for clients
- Hygiene and health and safety procedure manual
- Mobile therapist service area map and leaflet

Charities, councils and public sector

- Grant application drafted from last year's report
- Annual impact report with charts and case studies
- Fundraising campaign pack: posters, posts and scripts
- Public consultation summary of thousands of responses
- Easy-read versions of council documents
- Translated public notices for community languages
- Volunteer handbook and role descriptions
- Beneficiary case studies written from interview notes
- Board papers summarised in plain English
- Freedom of Information response drafts
- Policy briefing papers from research and data
- Community newsletter and event listings
- Personalised donor thank-you letters at scale
- Accessible website content meeting WCAG guidance
- Service user surveys with themed analysis
- Council meeting summaries written for residents
- Funding bid outcomes framework and budget narrative
- Planning application summaries for local residents
- Social media posts for awareness days
- Training course materials for frontline staff
- Local needs assessment from public datasets
- Legacy giving brochure and supporter stories
- Charity shop window displays and stock labels
- Campaign letter templates for supporters to send
- Equality impact assessment first drafts
- Community event toolkit for local organisers
- Video explainers for council services
- Corporate partnership proposal deck
- Councillor casework summaries and draft replies
- Evaluation report for a funded project

Sport and clubs

- Match reports from scores and coach notes
- Weekly fixtures and results graphics
- Training session plans by age group
- Season highlights video from match footage
- Sponsorship proposal pack for local businesses
- Club handbook and code of conduct
- Player development reports for parents
- Membership drive campaign for the new season
- Matchday programme with player profiles
- Club website news and player profiles
- Tournament schedule and pitch allocation plan
- Safeguarding policy refresh against governing body guidance
- Grant applications for facility improvements
- Matchday social media posts
- Kit designs and merchandise mockups
- Coaching drill library with diagrams
- Opposition scouting report from match footage
- Awards night presentation and certificates
- Junior section welcome pack for parents
- Volunteer recruitment flyers and role descriptions
- Club history book from archive photos and minutes
- Player statistics dashboard for the season
- Nutrition and recovery guides for players
- Fundraising event plan: quiz, ball or sportathon
- Clubhouse hire brochure for functions
- Course or venue guide with hole maps
- Injury prevention warm-up routines for squads
- Press releases for local newspapers
- Sponsor reports with social reach figures
- Facility development plan for councils and funders

Logistics, transport and supply chain

- Delivery routes re-planned around today's traffic and orders
- Proof-of-delivery photos checked and exceptions flagged
- Customs paperwork drafted from invoices and packing lists
- Commodity codes suggested for every product line
- Carrier rate comparison for each shipment lane
- Customer tracking updates sent at every delivery milestone
- Warehouse slotting plan based on pick frequency
- Load plans that maximise trailer and container space
- Demand forecast by product line for next quarter
- Reorder points recalculated from live sales and lead times
- Supplier risk briefing from news, filings and weather
- Driver hours checked against tachograph rules daily
- Damaged-goods claims assembled with photos and evidence
- Freight bills audited against contracted rates and surcharges
- Multilingual shipping instructions for overseas partners
- Warehouse safety induction pack with short quizzes
- Network study comparing depot locations and running costs
- Delivery slot booking handled by a chat assistant
- Returns triaged and routed to restock, repair or recycle
- Emissions report per shipment, lane and customer
- First-draft tender response for logistics contracts
- Stock discrepancies investigated and explained
- Port and border delay alerts with rerouting options
- Fleet maintenance schedule from mileage and defect reports
- Optimised pick paths for warehouse teams
- Dangerous goods documents checked for missing details
- Weekly service report with late-delivery root causes
- Supplier onboarding packs with specs and labelling rules
- Scenario model for fuel price and demand shocks
- Standard operating procedures written from walkthrough videos

Farming, land and environment

- Yield maps turned into field-by-field planting recommendations
- Drone imagery analysed for crop stress and weeds
- Grant and scheme applications drafted with supporting evidence
- Soil test results summarised into nutrient plans
- Livestock health records tracked with treatment reminders
- Weather-driven spraying and harvest window alerts
- Biodiversity net gain baseline report, first draft
- Hedgerow and habitat survey write-ups from field notes
- Diversification feasibility study using local market data
- Planning supporting statement for new farm buildings
- Woodland creation plan with species lists and maps
- Carbon footprint audit for a whole farm business
- Herd breeding records analysed for best performers
- Milk yield dashboards with per-cow anomaly alerts
- Farm shop product listings and descriptions written
- Field operations diary compiled from voice notes
- Rotation plan balancing soil health and margins
- Water abstraction and usage report from meter readings
- Flood risk summary for a holding from public data
- Environmental impact assessment scoping report draft
- Tree survey reports compiled from site photos
- Wildlife camera footage sorted and species tagged
- Title and boundary summaries for estate land parcels
- Land-use and tenancy maps updated from GIS data
- Pest and disease identification from smartphone photos
- Farm stay website content and visitor itineraries
- Machinery sharing schedule across neighbouring farms
- Peatland and wetland restoration proposal with costings
- Commodity market briefing to inform selling decisions
- Farm assurance audit evidence pack prepared

Energy, sustainability and surveying

- Solar panel layout and yield estimate from roof imagery
- EPC improvement plan ranked by cost and impact
- Building condition report drafted from survey photos
- Half-hourly energy data analysed for waste
- Scope 1, 2 and 3 emissions inventory
- Sustainability report drafted to the chosen framework
- Heat pump suitability assessment from property data
- Retrofit options appraisal for a housing portfolio
- Measured floor plans from laser scans and photos
- Supplier carbon questionnaires sent, chased and scored
- Net zero roadmap with milestones and owners
- Energy contract comparison across multiple sites
- Damp and mould risk flagged from sensor readings
- Dilapidations schedule drafted from inspection notes
- Planning constraints check for a site from public data
- EV charging feasibility study for a site
- Grant funding matched to decarbonisation projects
- Monthly energy dashboards with plain-English commentary
- Thermal imaging findings annotated and summarised
- Tender pack for energy efficiency works
- Party wall notice packs prepared for surveyor sign-off
- Battery storage sizing scenarios from usage data
- ESG data room assembled for investor questionnaires
- Asbestos register summaries for contractors on site
- Green lease clauses benchmarked across a portfolio
- Meter reading anomalies spotted and investigated
- Customer-friendly energy audit report with next steps
- Wind and solar resource summary for a site
- Embodied carbon comparison of building material options
- Survey bookings, reminders and site access arranged

Insurance and financial services

- Claims triaged from photos, forms and policy wording
- Policy wordings compared clause by clause across insurers
- Renewal pack explaining cover changes in plain English
- Risk survey report drafted from site visit notes
- Fraud indicators flagged across claims for investigator review
- Suitability report first drafts for adviser sign-off
- Client fact-find completed through a guided conversation
- Portfolio commentary for quarterly client reviews
- Market research briefing on a sector or stock
- Mortgage cases packaged with documents checked
- Know-your-customer checks with evidence compiled
- Underwriting submissions summarised with key risks highlighted
- Loss adjuster reports drafted from inspection evidence
- Pension transfer analysis prepared for adviser review
- Lifetime cash flow planning scenarios for clients
- Complaint responses drafted within regulatory timelines
- Consumer Duty outcome monitoring reports
- Cover gap analysis across a client's existing policies
- Commercial proposal forms pre-filled from public data
- Property valuation summaries from comparables and listings
- Investment committee papers drafted from research notes
- Due diligence pack on a target company
- Financial promotions checked against compliance rules
- Plain-English explainers for complex financial products
- Annual review meeting packs with charts and actions
- Catastrophe exposure maps for a property book
- Proactive claim status updates sent to policyholders
- Recovery opportunities identified from closed claims
- Credit memo first draft from accounts and bank data
- Model validation documents written from code and outputs

IT support and cybersecurity

- Support tickets triaged, answered or routed automatically
- Password resets and account unlocks handled by chat
- Phishing emails analysed and users warned within minutes
- Security logs reviewed daily with alerts prioritised
- Vulnerability scan results turned into a fix plan
- Patch status report across every managed device
- New starter laptops configured from a standard build
- Cyber Essentials evidence pack prepared for assessment
- Incident response playbooks tailored to each client
- Penetration test report written from tester notes
- Network diagrams generated from live device inventories
- Microsoft 365 security settings audited against best practice
- Backups checked with restore tests documented
- Phishing simulations with tailored training follow-up
- Knowledge base articles written from resolved tickets
- Monthly IT health report in plain English
- Software licence usage reviewed and savings identified
- Cloud cost optimisation recommendations with evidence
- Legacy scripts documented and modernised
- Migration plan for moving servers to the cloud
- Data protection impact assessment first draft
- Supplier security questionnaires answered from existing policies
- Dark web monitoring for leaked staff credentials
- Root cause analysis write-ups after outages
- Firewall rules reviewed for risky or unused entries
- IT policies drafted for staff to read and sign
- Access reviews showing who can see what
- Disaster recovery plan tested and documented
- Custom internal tools built from a plain-language brief
- Threat intelligence briefing tailored to the client's sector

Science, labs and R&D

- Literature review with every source cited and linked
- Experimental data cleaned, analysed and charted
- Lab notebook entries written up from voice notes
- Grant proposal first draft matched to funder criteria
- Statistical analysis plan for a planned study
- Instrument data pipelines built and documented
- Patent landscape search for a new invention
- Standard operating procedures drafted and version-controlled
- Protocol improvements suggested from past experiment results
- Sample tracking with chain-of-custody records
- Manuscript draft from results, figures and notes
- Point-by-point response letter to peer reviewers
- Publication-ready figures from raw datasets
- Microscopy images segmented and measured automatically
- Regulatory submission sections drafted for expert review
- Competitor pipeline and clinical trial tracker
- Reagent stock forecasts with reorder alerts
- Simulation and modelling code written and tested
- Conference poster and slides built from a paper
- Plain-English research summaries for funders and public
- Technology transfer briefs for potential licensees
- Quality control charts with out-of-spec results flagged
- Risk assessments and COSHH forms drafted for checking
- Equipment booking and maintenance logs managed
- Data management plan for a funding application
- New hypotheses generated from published datasets and papers
- Systematic review screening of thousands of abstracts
- Method transfer documents for partner laboratories
- Spectra and chromatograms interpreted with confidence notes
- Weekly research digest on chosen topics

Automotive and garages

- Repair estimate from photos and parts catalogues
- MOT and service reminders sent with booking links
- Fault codes explained with likely causes and fixes
- Video health check reports sent to customers
- Parts sourced and compared across suppliers
- Vehicle history and valuation summary for part-exchanges
- Used car listings written from photos and specs
- Workshop schedule balanced across technicians and bays
- Extra work approval requests sent to customers by text
- Technical service bulletins matched to each vehicle
- Wiring diagrams and repair procedures found instantly
- Insurance repair paperwork assembled for the insurer
- Fleet servicing plans that minimise vehicle downtime
- Battery health reports for used electric vehicles
- Plain-English job sheets explaining every repair
- Car finance options summarised for dealer sign-off
- Showroom enquiries answered and test drives booked
- Recall checks run on every vehicle booked in
- Bodywork damage assessed from customer smartphone photos
- Pre-purchase inspection reports with photos and findings
- Tyre stock forecasts by size and season
- Personalised video walkarounds for remote car buyers
- Dealer website stock pages updated automatically
- Customer reviews answered and recurring issues reported
- Diagnostic notes turned into technician training guides
- Classic car restoration plans with parts and timelines
- Warranty claims prepared with evidence for manufacturers
- Fleet driver damage reports compiled and costed
- Model comparison guides for undecided buyers
- Courtesy car bookings and handover checks managed

Customer experience and contact centres

- Round-the-clock chat assistant trained on client knowledge
- Every call transcribed, summarised and tagged by topic
- Every call quality-scored against agreed criteria
- Weekly customer sentiment trends with real examples
- Call scripts updated using top performers' techniques
- Knowledge gaps found from unanswered customer questions
- Multilingual support across email, chat and social
- Complaint root causes analysed with fixes proposed
- Customer journey maps built from real interaction data
- Agent coaching plans from individual call reviews
- Real-time answer suggestions for live agents
- After-call notes written automatically into the system
- Survey comments themed and summarised for leadership
- Voice assistant handling routine calls end to end
- Vulnerable customer indicators flagged for human follow-up
- Contact volume and staffing forecasts
- New agent training with role-play customer simulations
- Churn risk alerts with tailored retention messages drafted
- Social media mentions answered or escalated
- Help centre articles written and kept up to date
- Tone and brand voice checks on outgoing replies
- Callbacks scheduled at times customers prefer
- Mystery shopping of competitors' service channels
- Proactive outage and delay messages to affected customers
- Order changes and returns handled without an agent
- Service improvement roadmap from customer feedback
- Escalation summaries giving managers full context instantly
- Customer effort analysis across every channel
- Contact centre process redesign workshop materials
- Accessibility review of customer-facing channels

Personal life and household

- Weekly meal plan with supermarket order ready to approve
- Holiday itinerary with flights and hotels compared
- Household bills compared and cheaper switches suggested
- Family calendar coordinated across school, clubs and work
- Birthday gifts researched and ordered in good time
- Home repair quotes gathered from local tradespeople
- Big purchases researched with reviews compared
- Unused subscriptions flagged for cancelling
- House move checklist with providers notified
- Wedding or party plan with suppliers and timeline
- Personal fitness and nutrition plan tracked weekly
- Price drop alerts on wishlist items
- Homework help explained at the child's level
- Garden planting plan for your soil and aspect
- Car, home and travel insurance renewals compared
- Refund and complaint letters to companies drafted
- Restaurant, appointment and table bookings handled
- Personal documents organised with expiry reminders
- Care options for elderly parents researched and summarised
- Local school and nursery options compared
- Home inventory with receipts for warranties and claims
- Learning plan for a new language or skill
- Family photos sorted, tagged and made into albums
- Renovation plan with mood boards and trade schedule
- Day trips planned around weather and travel times
- Unwanted items listed for sale with descriptions
- Doctor appointment preparation notes and question lists
- Household budget dashboard with spending insights
- Pet care schedule with vet and grooming reminders
- Morning life admin digest with today's priorities
